Should Arizona expand its school-voucher program?

The Arizona Senate Feb. 22 approved the expansion of a school-voucher program that will allow every public school student to use state cash to attend a private school by 2020. SB 1279 is the latest in a series of vouchers expansions that began after the Legislature created the Empowerment Scholarship Account program in 2011, the measure still requires approval by the House and Gov. Doug Ducey. Do you support this latest voucher expansion?
